

REMARKS

Upon reviewing the present application after allowance, several typographical errors were noted in the claims. Namely, in claim 24, "A solder balls assembly" should be "A solder ball assembly", and in claims 28 and 29, "first and second heat-resisting sheets" should clearly read "first and second heat-resisting layers", since each of claims 28 and 29 previously defines "first and second heat-resisting layers", not "first and second heat-resisting sheets".

In this amendment, the Applicants propose to amend claims 24, 28, and 29 to correct these errors. The proposed claim amendment is suitable because it corrects the grammar and improves the readability of the claims. The proposed claim amendment does not require any additional search or examination since it does not affect the scope of the claims. Because of the subtlety of these errors, they were not noticed by either the Examiner or the Applicants until the present time, so an amendment correcting these errors could not be presented earlier.

This amendment does not require any substantial amount of

additional work on the part of the Examiner, so entry of this amendment is proper under MPEP 714.16.

Respectfully submitted,

Michael Tobias
